### Course Details: Combining Islamic essentials with real-life skills

This course is designed to integrate essential Islamic sciences with relevant life skills that young men should possess. From the external fiqhi rulings of worship, to the internal good qualities and tarbiyah that all Muslims must have, this course aims to **set the foundations for young boys to develop into the ideal Muslim man.** Workshops will show the Islamic perspectives on contemporary challenges that many of our youth are either currently struggling with, or will be exposed to in the future. Topics will include

things like social media, peer pressure, drugs, relationships, gender, true masculinity/manliness, and more. With guest speakers coming in to discuss their experiences on different life issues, students will get a real-life perspective of the realities of what they are learning. Together with the religious aspects, we will include essential life skills workshops that will be full of knowledge, experience, and good memories. These workshops will include things like wrestling, archery, car maintenance, and more.

### **Course Schedule:**

Saturdays, 11:00 AM - 1:30 PM PST

First class will be November 11 and end in June. (There will be regular breaks following school calendars)

### **Location:**

Lowry Masjid (ISEB), Fremont

Online option is also available (excluding the physical workshops like wrestling etc)
